

Las 10 heurísticas de usabilidad de Nielsen

Nielsen's 10 usability heuristics

1. Visibilidad del estado del sistema
2. Correlación entre el sistema y el mundo real
3. Libertad y control de uso
4. Consistencia y estándares
5. Prevención de errores
6. Reconocer por sobre recordar
7. Flexibilidad y eficiencia de uso
8. Diseño estético y minimalista
9. Ayudar a reconocer, diagnosticar y recuperarse de errores
10. Ayuda y documentación

Heurística #1: Visibilidad del estado del sistema

Visibility of system status

- *Feedback* para cada acción del usuario: cómo cambia la interfaz con el input del usuario? (e.g., al hacer click en un link o botón)
- Mostrar el estado interno del sistema

The screenshot shows the Stack Overflow search results page. The left sidebar contains navigation links: Home, PUBLIC, Questions (selected), Tags, Users, COLLECTIVES, Explore Collectives, FIND A JOB, Jobs, Companies, and TEAMS. The main content area displays search results for the query "error initializing output stream 0:0 error while opening encoder for output stream #0:0 - maybe incorrect parameters such as bit_rate rate width or height". The results are sorted by Relevance. The first result is a question titled "Q: Intel QuickSync error : Error while opening encoder for output stream #0:0 - maybe incorrect..." with 1 vote and 0 answers. The second result is a question titled "Q: ffmpeg width not divisible by 2 (375x500) error" with 2 votes and 1 answer. The third result is a question titled "Q: ffmpeg width not divided by 2 (2247x1500) [duplicate]" with 0 votes and 0 answers. The fourth result is a question titled "Q: When converting video through ffmpeg show error" with 1 vote and 0 answers.
