Heurística #4: Consistencia y estándares

Consistency and standards

- Consistencia interna: mantener consistencia en el vocabulario, paleta de colores, mapeo entre íconos y acciones y entre feedback e input en todo el sistema

The screenshot displays a Moodle course interface at the URL `moodle.aau.dk/course/view.php?id=48286`. The layout is clean and consistent, featuring a top navigation bar with links for 'All courses', 'Guest', 'Search', 'Help', and 'Links'. A sidebar on the left contains course information such as 'Semester: SW3 KBH', 'Lecturer: Jeanette Falk Olese...', and 'Study Secretary: Christina M...'. The main content area is organized into a table with rows for 'Course', 'Page Literature', 'Forum News forum', and 'Database Repository of Usability Fails'. Each row includes a consistent icon, a title, and a link icon. The interface uses a light color palette and consistent typography, demonstrating internal consistency in design.

Heurística #4: Consistencia y estándares

Consistency and standards

- Consistencia interna: mantener consistencia en el vocabulario, paleta de colores, mapeo entre íconos y acciones y entre feedback e input en todo el sistema
- Consistencia externa: seguir convenciones y patrones de diseño que los usuarios puedan llegar a conocer de otros sistemas similares
